Golf Tournament.

The golf tournament on Sunday attracted a large number of entries and 25 members of the local golf club made the rounds of the course. J. A. McGehee and Chas. Mortimer with scores of 71 tied in the first flight, McGehee winning the play-off. J. McLaughlin with a score of 75 was winner of the second flight. Bert Cressman who was the winner of the last two competitions was apparently not in form and finished with the tail-enders in this competition. The following were the scores handed in:

1st Flight	2nd Flight
McGehee 71	McLaughlin 75
Mortimer 71	Kulank 76
Wyman 72	Ranton 76
Bellamy 72	Brusso 77
Dooley 74	McFarquhar 77
Cook 75	McLaur 77
Lee 75	M Foster 78
Hyslop 75	R Ford 79
Johnson 76	W Jones 80
W. Liesemer 77	Cressman 82
Fisher 77	Kaufman 82
	Julien 82
	Pearson 82
	Kirby 85

Coming Events

Don't forget the concert under auspices of the Ladies Aid, Opera House Saturday night. YOC come.

A social evening and whist drive will be held in Lone Pine Hall on Saturday evening, October 31st, under the auspices of the W. I.

Weekly Sermonette.

"You can't prove the reality of your religion by its racket."

Births. Bridge.

A number of the young people were entertained at a birthday bridge party at the home of Mr. and Mrs. J. A. McGehee on Friday evening in honor of their daughter, Bernice.

Five tables of bridge were played, the prize-winners being: Dorothy Hugot and Lorna Clarke, Arthur Evans and Jack Morton.

Those present were: Jessie McCoy, Lorna Clarke, Dorothy and Grace Ranton, Bernice and Nelda Hugot, Irene Bellamy, Margaret Geiger, Annie Currie and Bernice McGehee. Ronnie Melroe, George and Tom Royds, Arthur and Fred Evans, Alf Brusso, Tom Clarke, Jack Morton, Murray Kendrick and Ormond Phillips.

Obtained Money Under False Pretences

Charged with obtaining money under false pretences, Floyd Olsen, of Edmonton was brought before Mr. J. W. Phillips, local magistrate on Monday. Olsen bought a saddle and a pair of chaps on a contract and sold them to Wilbur H. Vipond for cash, the goods being subsequently seized under the contract.

Olsen, who pleaded guilty was ordered to make restitution, and sentenced to six months suspended sentence and will report to the police monthly.

Tommy Johnson was awfully anxious And Earnshaw sympathized with our local fan.

So he sent to our friend this wire: "Tommy, I'm doing the best I can."

LOCAL & GENERAL

Mr. and Mrs. J. W. Halton were Calgary visitors Thursday last.

Mr. and Mrs. J. V. Berscht and Jean were visitors to the south-east city one day last week.

Mr. George Haig, of Carleton Place, was a business visitor here on Monday.

Mr. Frank Rowleson, of Portland, Ore. and Mr. Jesse Rowleson, of Cheyenne, Wyo. visited their sister, Mrs. J. E. Gosler this week.

Evangelism and sermon at St. Cyprian's Anglican Church on Sunday at 7:30 p.m. Preacher: Rev. R. Lowbridge.

Mr. A. G. Studer, returned Tuesday from Sylvan Lake where he has been spending a two weeks holiday.

Mr. W. A. Austin returned on Friday from his vacation in England. He returned on the Empress of Britain. Mr. Austin says he is glad to get back to where the sun shines.

The annual meeting of Didsbury Hockey Club will be held tonight (Thursday) in C. E. Robb's office at 8 p.m. All players, players and others who are interested are kindly requested to be present.

The baseball club is desirous of receiving the guarantee, that the year's business may be secured. All guarantors who have not paid, please see the finance committee: W. McFarquhar, F. Kaufman, Ed Ford, or Ward Keith. Come then?

The subject of this sermon at Zion Evangelical Church on Sunday, Oct. 25th at 10:30 a.m. will be: "The Price of Discipleship." At 7:30 p.m. the Senior Christian Endeavor will have charge of the service and will present a missionary playlet entitled: "The Girl Who Fell Through The Earth."

Remembrance Day, Nov. 11 will be observed throughout Canada as a public holiday, according to the Act passed at the last session of parliament, regulating observance of the cessation of hostilities on Nov. 11th, 1918. The occasion will be observed in the same manner as Canadians observe Labor Day and other national holidays, according to the meaning of the act. It was said at the office of the secretary of state.

Shareholders in Burns & Co. were officially informed on Monday that to meet the need for additional working capital, Senator P. Burns has put approximately \$800,000 into the business. For \$300,000 of this sum, the company issued to Senator Burns 30,000 ordinary treasury shares of Burns & Co., the balance representing a purchase of six per cent. redeemable mortgage bonds of a subsidiary company, Palm Dairies Ltd.

Public Address System Installed at University

The modern "public address" system recently purchased by the University of Alberta at its direct cost from Mr. W. H. B. Sharp, of Edmonton, was installed last week and given its first public demonstration Saturday during the Alberta-Saskatchewan rugby game.

The system will be used at the varsity track, rugby grid, basketball and football games, track meets etc. In the track it is planned to use the equipment in place of a band for starters.

The announcer of any game will carry a microphone in his hand and find a suitable spot on the sidelines from which he can watch the play. The microphone will be connected to an amplifier and from this to the loudspeakers. During intervals, reproduction of phonograph music, by the aid of a switch, will be audible to the crowds. Due to its portability the system will be adaptable to many uses and should prove a worth-while investment.

Gray Sharp, applied science student will be in charge of the operating.

Tuxis Organize.

The Q Boys Tuxis Boys Group was organized on Monday evening and the following officers were elected: Tom Reynolds, Pretor; Jack Morton, Deputy Pretor; Pete Bookor, Scriptor; and Fred Evans, Comptroller.

A discussion as to the aims and ideals of the group took place and plans were made as to time and place of meetings.

The group numbers 12 and they are looking forward to a good fall and winter program.

The meeting was held at the home of Mr. and Mrs. Boorman and after the business period was finished, games were played and a bunch concluded the evening.

Mrs. Florence Robb, is spending a week in Calgary.

Keen Competition in Red Deer Seat

Resident of the Red Deer district on 1881, R. L. Gault, merchant, on Tuesday night was nominated by the United Farmers of Alberta party to contest on its behalf the forthcoming election to fill the legislative seat left vacant by the death early in August of George W. Smith, U.F.A. member for the Red Deer riding.

With his entry into the field, the candidates now total four, with a fifth to follow when the Liberal nominating convention is held on Friday.

Thomas A. Edison Passes Away

Thomas A. Edison on death, received today the homage of the millions for whom he had made life more comfortable.

The body of the 84-year-old inventor, who died at 3:24 a.m. on Sunday, lay in state in the library of his laboratory.

After a private funeral Wednesday at his Glenmont Estate, Mr. Edison's body will be taken to Milan, Ohio, for burial near his birthplace.

C. G. I. T.

The Senior C. G. I. T. met at the home of Mrs. J. Boorman on Thursday, Oct. 15, to re-organize for the coming year. Dorothy Ranton was re-elected President, Mollie Pearson, Vice President, Elsie Repley, Secretary and Mina Viney, Treasurer.

After the worship and business period, the girls read over a play entitled "The Gift", which they plan to put on before Christmas. The meeting closed with a social time and refreshments.

Mrs. Cecil Studer, of Lethbridge, who has been visiting Mr. and Mrs. A. G. Studer for the past two weeks returned home on Wednesday.

The World's Grain Show

"Canada, 1930," a booklet published by the Dominion Bureau of Statistics at Ottawa, summarizes the value of production in Canada for 1927 as follows: Agriculture, 38.1 per cent; forestry, 8; fisheries, 1.3; trapping, 0.4; mining, 6.3; electric power, 2.7; construction, 8.2; custom and repair, 1.9; manufactures, 33.1 per cent.

These figures are significant. They show conclusively the paramount importance of the industry of agriculture.

This importance is accentuated by the fact that the conditions of manufacturing, which occupies second place, reflect almost immediately the conditions of agriculture. It is accentuated even to a greater degree when one comes to examine the manufacturing schedule of the same booklet. Among the twenty-five leading manufacturing industries of Canada, flour and grain mill products occupy second place; slaughtering and meat packing third; butter and cheese seventh; bread and bakery products fourth.

A glance at the exports schedules discloses the further fact that wheat stands at the top of the list and wheat flour second.

It seems to be needless, therefore, to make an apology for stating that any activity which promises even a surer footing for Canada's greatest industry merits the attention and support of every Canadian.

Will the World's Grain Exhibition and Conference to take place at Regina next year bear scrutiny from this point of view? Let us see.

In the first place, it is as its name implies, an exhibition and a conference. Secondly, it is open for participation to all the world.

The exhibition may be conveniently divided into three parts—the competitive, the national, and the commercial exhibits.

The competitive exhibits consist of 19 kinds of field crop products, divided into 36 classes, embracing practically all kinds of grain and seed grown in the world. The total of cash prizes offered is over \$30,000 and the individual prizes are greater than have been offered ever before, anywhere in the world, at any other exhibition of its kind.

The winning of these prizes, however, is not the real objective of the competitive exhibition. The stimulant for a better quality field product is infinitely more important. Its effect is already apparent. There is ample evidence of this. The demand for registered, better quality—used in greater all over Canada than it has ever had before. One organization reports an increase of almost 100 per cent.

The national and commercial exhibits will tax the floor space of the immense new building to the utmost. Twenty-seven countries have already spoken for space and others will follow—50 are expected. A visit to these exhibits, occupying a frontage of over a mile and a half, will be an educational feature surpassed only by a trip around the world—a trip, by the way, which most of us are unable to enjoy.

The privilege to participate, either as a competitor in any or all the prize classes, as an exhibitor in the national or the commercial section, or as a mere visitor, is open, wide open to the great wide world.

Conferences of technical and practical agriculturists from many countries will take place during every day from July 25 to August 6. The programme will provide for the discussion of every conceivable subject having to do with all phases of field crop production, from the preparation of the soil to the disposal of the product for food, fodder, shelter or clothing.

Then there are the competitions for juniors, the tours of Canada, and a dozen other features, a mere reference to which space will not permit.

This whole programme, although not complete at this time, already contains the names of over a score of the "world's best." Surely such a co-operation of brains as this will constitute an asset to agriculture the value of which no man has the tenacity to estimate.

Even from a monetary point of view alone, if the final effect be to raise the value of Canada's agricultural asset of almost 2,000 millions of dollars to the extent of one hundredth of one per cent, annually, the money necessary to carry the project to success will be an exceedingly profitable business investment.

But the World's Grain Exhibition and Conference will do more than this. It will effectively advertise Canada to the rest of the world, will give her an opportunity to take stock and ascertain her standing in field crop production, will stimulate her growers in the use of better seed, will clear away any false impressions in the minds of foreign buyers, will demonstrate to her growers the kind of competition that must be met in the markets of the world, will bring to our own country valuable ideas and experiences, and, most important of all, it will take its place among the great events which have brought the nations of the world into closer communion and a little further along the lumpy and tortuous trail toward the fertile meadows of international peace.

Saskatchewan Dairy Industry

Saskatchewan's dairy industry is expanding. The creamery butter production during July averaged 2,803,316 pounds, an increase of 287,660 pounds over the output of July last year. The production for the first seven months of the year came to 11,437,874 pounds or 3,048,951 pounds more than for the similar period of 1929—a gain of 26.3 per cent.

Seventeen kinds of palms grow naturally in the United States.

Famous Jewel For Museum

The famous Canning Jewel, which the Earl of Harewood had at Salisbury's last June for \$50,000, has been presented to the Victoria and Albert Museum by "An American Friend" who desired to remain anonymous. The jewel dates from the 16th century and is traditionally supposed to have been sent by the Grand Duke of Tuscany to one of the Mogul Emperors.

Glasgow, Scotland, is to have its first collection boxes.

Suffered Severe, Painful Cramps In Her Stomach

These terrible cramps in the stomach that double you up in pain and make you break out in a cold perspiration, may be stopped by a few doses of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Lloyd Jones, 204 Argyle St., Halifax, N.S., writes:—"I have suffered greatly from severe and painful cramps in my stomach. I tried several remedies without result. One day a friend advised me to take Dr. Fowler's Extract of Wild Strawberry, so I bought a bottle and got instant relief."

Cut In British Dole

Variety Of Unemployed Men and Women Are Affected

The 10 per cent cut in unemployment insurance benefits in Britain, commonly called the dole, will affect a variety of unemployed men and women alike, from the age of 16 to 65. At the same time those in employment are called upon to increase their weekly payments to the "dole fund" and employers' contributions are likewise increased, under the provisions of the national economy bill.

Hitherto youths of 18 have been entitled to \$2.50 a week, rising to \$4.25, according to age. The \$4.25 is the maximum for single men.

Unemployed girls from the age of 16 are entitled to \$1.25 a week, with a rising scale for intervening ages to 21, when the allowance is \$3.75.

Additional benefits for dependents and children will not be affected by the reductions.

SAVED IMPORTED DRESS

"After a little wearing, a lovely green voile—an imported dress—lost colour so completely that it was not wearable. A friend who had admired it asked me why I wasn't wearing it any more. On hearing the reason she advised dyeing it and recommended Diamond Dyes. To make a long story short, it turned out beautifully. I have a lovely new dress that really cost just the price of one package of Diamond Dyes."

I have since used Diamond Dyes for both dyeing and dyeing. They do either equally well. I am not an expert but have been very successful with Diamond Dyes. They seem to be made so they always go on smoothly and evenly. They never spoil, streak or run, and friends never know the things I dye with Diamond Dyes are dyed at all!"

Mrs. R.E., Quebec.

Will Publish In Canada

Six American Magazines Will Now Be Printed Here

Publication of six magazines in Canada has been announced by McFadden Publications, and readers of the publications, numbering 500,000 in the Dominion, will obtain them at the same price as prevails today. The company has obtained a Dominion charter.

A statement issued by the publishers says, in part: "By so doing, we not only feel that we can do our part in the promotion of the printing industry in Canada, but we also propose to promote our publications with the newspaper advertising with the knowledge we are building on a stable foundation."

The company has contracted for an advertising campaign covering every part of the Dominion.

Don't Submit To Asthma. If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Asbestos is the only mineral that can be woven into fire-proof garments and molded into instruments impervious to flame.

Painful and perfect in their action, Miller's Worm Powders are always a safe and reliable remedy for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A point of notable importance is that after Miller's Worm Powders have expelled the worms, the teeth and bowels are toned up into a very healthy condition.

Nevada excavations show that man was existent on the northern continent before the Ice-age era.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

Would Be Better

A pipeline organ has been invented which turns electricity into music. Many persons would probably be better pleased at the invention of a device to turn some radio music so called, into useful electricity.

Onions, potatoes, and tomatoes worth \$10,000,000 were sent to England from Spain, France, and the Channel Islands last year.

Final Stage Of Depression

Winter Will Be Hard But Better Times Are To Follow

"The coming winter is expected to be the final stage of the three years of depression through which Canada has been passing." These words, taken from a speech which E. W. Beatty, president of the Canadian Pacific Railway, made recently at Fredericton, N.B., will be accepted everywhere as reassuring. Mr. Beatty is in a position to speak on such matters as he has an inside knowledge of economic tendencies. There is no doubt that we are in for a hard winter, but if we can feel that it will mark the turn of the tide we can see it through with hope and confidence. The darkness is often deepest just before the dawn, and there are certainly many reasons for believing that the coming year will see Canada on the crest of the world once more on the upgrade towards normal trade and business conditions. — Toronto Mail and Empire.

The invention of a wind measuring instrument so sensitive that it will record a drop of wind pressure from eighty-five miles an hour to zero in one-hundred and twentieth of a second, is announced.

An Eskimo who had never visited civilization before saw his first movie and became insane. We think we've seen the same movie.

Will Use Alberta Coal

To Receive Share Of Relief Coal Orders From Saskatchewan

A Alberta domestic coal operators will receive a proportionate share of relief coal orders from Saskatchewan, according to C. G. Durham, secretary of the Alberta Domestic Coal Operators' Association. Alberta mines will supply one ton in four for eastern Saskatchewan, he said, receiving practically all the orders for the western part of the province. Orders, it is believed, will reach 250,000 tons.

Persian Balm—there is nothing like it for treating and preserving a lovely complexion. Cooling, cleansing—it soothes and dispels all roughness or chafe caused by weather conditions. Delicately fragrant, it adds exquisite charm to the most finished appearance. Delicate women inevitably choose Persian Balm. A velvety smooth skin, it makes the skin rose-leaf in texture. Recommended also to soften and whiten the hands. Truly a perfect toilet requisite for every woman.

A little boy once gave a definition of friendship. A person who knows us and still likes us. He might have added: and who lets us alone and doesn't interfere in our private affairs and doesn't come to see us too often.

A lot of folk think that heaving is an easy way of getting a living, but we'd like to see them try it for a couple of weeks. We have yet to envy a beggar.

THRIFT TOURS

To Europe, with hotels and sight-seeing, back to Montreal—24 days.

Prices are down. You can see London, Paris, Brussels, etc., on an inclusive tour from Montreal—lasting 24 days—and back. Ask for folder on how to travel so amazingly, widely, and well, from \$174—all expenses paid.

For \$129, you can sail from Montreal to Belfast, Glasgow, Liverpool, Plymouth or London and back. See your relatives and friends, or travel at will.

Good going till Oct. 15th Third Class—unique opportunity with jolly companions.

Richness Of Mineral Fields In Great Bear Lake Area Are Stated To Exceed Cobalt

Confirmation of the sensational richness of the mineral fields in Great Bear Lake was given by Robert J. Jowsey, prominent Toronto mining man and prominent in the Sherritt-Gordon Corporation, who recently returned by aeroplane from the north. Although reticent, Mr. Jowsey admitted that he had "never before seen such an abundance of mineral stains in one area in a lifetime of mining."

Mr. Jowsey, who was one of the pioneers in Cobalt, declared that owing to the entire country being composed of high ridges in which the mineral lies, mining will be comparatively simple.

"Where it cost \$80,000 to get a plant going in the Cobalt, one with four times the capacity can be set up on Great Bear Lake for \$8,000 to \$10,000."

Discussing the question of production and smelting, Mr. Jowsey expressed the view that there would be no difficulty in smelting the silver ore when it is mined. The proximity of oil at Fort Norman will greatly assist the Great Bear development, Mr. Jowsey believes.

"In all my experience in mining, I've had plenty years of it, never have I seen anything to compare with Great Bear," said Mr. Jowsey. "The copper vein is, I think, the largest and richest in the world. Some of the silver lodes are so rich and virgin that they can be shipped to the smelter and melted to raw silver without any refining," said Mr. Jowsey.

In the present instance Mr. Jowsey is not acting for the Sherritt-Gordon, but went into Bear Lake independently.

He proposes to do development work this winter and will send in gangs of men to Great Bear to probe the seven claims he staked on this trip.

"I should estimate," he said, "that there are close to 2,000 claims staked already and every day sees virgin land with prospectors arriving to stake. I hope that I threw my stakes into a couple of million dollars worth of silver, but I can't tell yet," was his smiling statement. He did, however, say that Ventures Dominion Explorers, Sherritt-Gordon, Manitoba Basin, N.A.M.E. and Consolidated Smelters and Miners had sunk a few holes and on the strength of the findings were each leaving men on the claims for development during the winter.

Questioned on the radium situation, he said: "I saw a lot of stuff which they said was radium, but whether it was worth a million a ton or \$3 a ton I couldn't tell. I don't know radium."

"But I do know copper and silver and what I saw showed me that at Great Bear is the largest and richest run of pay-ore veins in the world. Even if the radium only pans out to a dollar a ton, millions will be made from the copper and silver. So abundant is it that it stinks out of the rock on the lake shore and extends back into the coppermine area."

According to information there are only three mining camps established so far. LadRue has one at Hunter and Echo Bay each, while the Dominion Explorers have one at Glicker Bay.

"Right now," he said, "only the large extensive mining concerns realize the untold wealth of the area. The general public does not seem to know just how heavily the land is mineralized. It will be a repetition of the affair at Cobalt in 1904 when land there was sold for a song to the mining corporations. Great Bear will make the Cobalt field look like a piker."

"If you go into the cage again and make the lion wild, I will set the dog on you." Muskele, Vienna.

W. N. H. 1928

Lure Of The North

Many Applications For Permission To Locate At Churchill

The lure of the north is strong in the hearts of Canadians. Anyone doubting this should see the correspondence piling in on officials to the Hudson Bay Railway and the Manitoba Government asking permission to go to the new port of Churchill, which has not been opened yet to the public. Everyone seems to want to go north. The requests come from commercial interests desiring to be early on the scene, and from the great mass of individuals that wish to grow up with the port. Many desire to go in this fall to establish a business and be ready to open their doors in the spring. Hotel applications by the dozen, clothing stores, dozens of different kinds of stores, all these are clamoring for the provincial government to let them in on the "ground floor" at Churchill.

It is learned officially, however, that Churchill will not be opened to the public until next summer at the earliest, although the laying out of the townsite is completed.

There is a considerable programme of work to be done at Churchill next summer before the port will be completed, although construction work on the elevator is finished.

Bacon Cannot Be Frozen For Export

But Scientists Have Found Way To Overcome Difficulty

Bacon cannot be successfully frozen for export. But British scientists have proved that pork can be frozen and then mild-cured into bacon on arrival in the United Kingdom. Frozen pork from New Zealand was defrosted at Cambridge and made into bacon. Then it was sent to a number of bacon experts for comparison with the best Danish and English sides. The experts rated it superior to Danish and only slightly inferior to the highest quality English bacon. This work is part of a scheme for research into the best methods of transporting and storing Empire meat financed by the Empire Marketing Board.

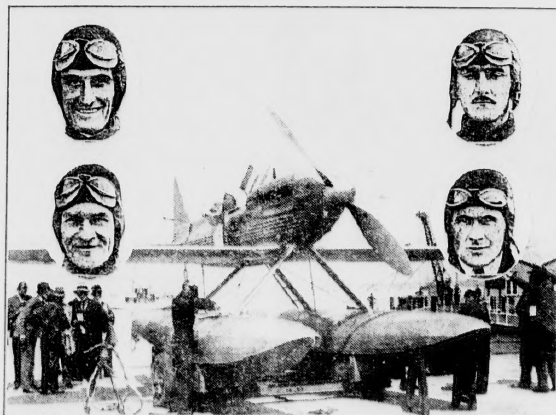

How To Increase Clover Seed Yield

Harvest First Crop When Plants Coming To Bloom

The yield of red clover seed can be increased by cutting the first crop when the plants are coming into bloom, rather than later, according to the Ohio experiment station. Cutting the hay crop early, so as to give the second or shed crop a good chance, is the one important factor in increasing yield which is within the grower's control. Important factors beyond his control are favourable weather and plenty of bumblebees or other pollinating insects. Early cut is more difficult to cure and the yield is somewhat less than later cut hay, but the feeding value per ton is greater than that of more mature hay.

Lambers seems to pay best when treated as a farm crop.

BRITISH SCHNEIDER CUP PILOTS RACE AGAINST EACH OTHER

Flight Lieutenant G. H. Stainforth set a new world's speed record of 380.1 miles an hour in a seaplane over a three-kilometre course at Calshot, England.

Great Britain also won permanent possession of the Schneider cup when Flight Lieutenant J. N. Boothman flew another seaplane 217 miles at an average speed of 340.08 miles an hour over a 31-mile course.

While Lieutenant Stainforth's speed remained to be checked and verified by the International Aeronautical Federation, it officially was announced that he had beaten by more than 28 miles an hour the previous world's speed record of 357.7 miles an hour, set by Squadron Leader A. H. Orlebar, in 1929.

Lieutenant Stainforth's speed over the second of four laps was 404.265 miles an hour. This new record for the distance verified predictions that a British plane would pass the 400 mark.

With the performance of Lieut. Boothman, Great Britain took the Schneider trophy permanently, having won the two previous Schneider cup races. The cup was presented by the late Jacques Schneider, French sportsman, for international competition. Inset are four of the five daredevils who participated in the race. Top left and right: Squadron Leader Orlebar, previous holder of the world's record, 357 miles per hour; and Flight-Lieut. Stainforth. Below, left and right: Flight-Lieut. Long, and Flight-Lieut. Boothman.

National Wealth Of Canada According To Latest Estimates Is Placed At High Figure

Just Like Human Beings

Among Millions Of Hens No Two Alike Says Expert Poultryman

To most persons a chicken is just a chicken minus any characteristics which distinguish it from any other chicken, aside from the obvious differences in breeds. But to E. C. Foreman of Lowell, Michigan, each chicken is an individual. In fact, he says a hen has a social consciousness, a cosmic urge, and can be just as temperamental as the female of the human species.

For six years he was in charge of the poultry department of Michigan State College and then served as head of the poultry department for two years. Six years ago he came to Lowell and started a poultry farm.

"Every hen," according to Mr. Foreman, "has just as many characteristics as a human being. Among all the millions of hens in the world no two are alike."

"Chickens," he continues, "fall into three classifications. Out of every hundred approximately 10 are super, 60 are mediocre and 30 are culls. That, I think, is about the same percentage as among human beings. The 10 per cent. has beauty and character and intelligence. It is keen and alert and aggressive."

Manitoba Community Farm

Plans For Providing Employment For 1,000 Persons Are Under Way

Plans for a community farm employing eventually 1,000 persons were advanced in Winnipeg when it was announced that a five-year lease of the 2,000-acre Manitoba Government Farm, 76 miles northwest of Winnipeg, would likely be granted.

The Imperial Farming League of Manitoba, negotiating with the Provincial Government for the lease, purposes to convert the farm into a self-sustaining community where married men and their families will have the opportunity of making a living. Fifty families, preferably from Winnipeg, will be given immediate employment there. The scheme is designed to relieve unemployment and the city council will be requested to co-operate by allowing \$350 to each man.

Aeroplane passenger service will be established in China from Shanghai to the Siberian border, where it will connect with a Soviet service to Europe.

The national wealth of Canada, in 1929 was, exclusive of undeveloped natural resources, approximately \$30,840,000,000, which is an increase of \$2,910,000,000 over the 1928 estimate of \$29,620,000,000, according to the Dominion Bureau of Statistics. Similar estimates placed the total for 1921 at \$22,190,000,000 and for 1925 at \$25,675,000,000 though these figures are not exactly comparable in view of certain improvements and additions that have been made in the method of estimation. In the present report is included for the first time an estimate of the wealth in harbours, aircraft and highways.

As regards the provincial distribution of wealth, Ontario ranked first with estimated aggregate wealth of \$10,628,000,000 or 34.46 per cent. of the total; Quebec second, with \$8,266,000,000 or 26.8 per cent.; Saskatchewan third, with \$3,047,000,000 or 9.88 per cent.; and British Columbia fourth, with \$2,644,000,000 or 8.57 per cent. of the whole. The other provinces ranked as follows: Alberta, \$2,466,000,000; Manitoba, \$1,470,000,000; Nova Scotia, \$911,000,000; New Brunswick, \$788,600,000; Prince Edward Island, \$164,000,000.

While Ontario and Quebec led in absolute wealth, the western provinces came first in per capita wealth. British Columbia held first rank with a per capita wealth of \$4,474, Alberta second, with \$3,724, and Saskatchewan third, with \$3,016. Ontario was fourth, with a per capita wealth of \$3,219 was fourth, Quebec was fifth with \$3,072, and Manitoba sixth, with \$2,976.

Urban real property amounting to \$8,251,011,000 or 26.75 per cent. of the total, constituted the largest item in our national wealth.

The total agricultural wealth, which in 1929 was \$8,052,000,000 declined to \$7,939,477,000 or 25.74 per cent. This amount includes the value of agricultural production in 1929 or \$1,631,224,000 to cover the average stocks of agricultural goods in the possession of farmers and traders and the amount invested in preparation for the new crop.

Result Of Wheat Test

Shows Protein Content Of Manitoba Crops Higher This Year

Dr. J. J. Birchard of the research laboratory of the Canadian Board of Grain Commissioners, in a test made for protein content in the wheat crop of Manitoba, shows that the wheat crop of the province has a maximum of 18.3 per cent. as against a maximum of 14.5 per cent. last year and a minimum of 10.2 per cent. this year as compared with 8.4 per cent. last; the average being 12.25 per cent. against 11.5 per cent. in 1930. The test grains were taken from the same districts as last year.

Suited Him Fine

A colored minister of a Baptist church, so runs the story, in order to strengthen and confirm the faith of his congregation, took as his text: "In those days came John the Baptist, preaching in the wilderness of Judea."

"Oh," said he, "how I like to read these precious words in the blessed Bible! You don't read anywhere about John the Presbyterian or John the Episcopalian. No, brethren, it is John the Baptist!"

Mechanical food service which was installed by a small restaurant in London has not proved popular.

"What! Is shilling for that a 'pope meal'! Are chickens so scarce?" "No, but customers are?" Hummel, Hamburg.

New Grades Urged For Garnet Wheat

Garnet wheat will be excluded from the contract grades of the northern classes after July 31st, 1932. If a resolution, passed unanimously by the western grain standards board recently, is approved, and the Canadian Grain Act duly amended at the next session of parliament.

The resolution urged that it be graded as a separate variety of wheat in grades to be known as number one, two or three Garnet, with anything which fails to meet with the requirements of these grades, being included in the lower grades of red spring wheat.

E. B. Ramsey, chairman of the board of grain commissioners stated he had discussed the matter with the council of the Winnipeg Grain Exchange, following receipt of a resolution at a session of the board held last Thursday and had asked the exchange to amend its trading regulations to permit of three grades of Garnet wheat being deliverable on the futures contract in the event of the new grades being embodied in the Canada Grain Act.

Buffalo Meat to be Sold Canadian Housewives

Buffalo meat, steaks, tongues and tails, delicacies which figured on the plainman's menu in Western Canada many years ago, will again be available for Canadian householders and diners in hotels and dining cars of the Canadian National Railways, as an announcement from Ottawa says that another 1,500 animals from Canada's great buffalo herd at Wainwright Park are to be slaughtered in the late fall and early winter.

At the end of March of this year there were more than 6,000 animals in the Wainwright preserve. To this number has since been added the annual increase of about 20 per cent., with the result that the park is again overstocked as to its grazing possibilities, and thinning-out of the herd has been decided upon by the National Parks Branch, which controls the buffalo experiments. This is not the first time that it has been found necessary to reduce the Wainwright herd. On several occasions large numbers of animals have been slaughtered and their products have been marketed for consumption.

Feed Hogs to a Finish.

In a review of the hog market situation as it exists at the present time, A. A. MacMillan, Chief of the Sheep and Swine Division, Dominion Livestock Branch, states that there is no justification for the practice, which has been too general this season, of trying to beat the market by selling off lightweight, unfinished hogs to gain a few cents per pound at current prices. As he sees it, the principal effect of such practices has been to demoralize the market and force prices much below what they

otherwise might be.

With Canadian hog prices drastically realigned both to suit domestic conditions and export market prices the commonsense practice to use at the present time, according to Mr. MacMillan, is to finish hogs up to proper market weight, around 200 pounds. This, he believes is the one effective way in which to develop a "steady" hog market, to regularize marketings and at the same time to improve quality.

**Mountain View Notes**

Mr. and Mrs. H. Roberts were recent visitors to Calgary.

The men who recently returned from the north report excellent yields.

Mr. and Mrs. Richards and Mrs. Willis, of Calgary, were visitors at the home of Mr. and Mrs. H. Roberts recently.

Some gentleman reported that he knew we were going to have a mild winter again. Mr. Farmer is hoping it won't be a winter without snow.

The monthly meeting of the W.I. took place Thursday last at the Hall. Final arrangements were made for the fall bazaar, which is being held the first Friday evening in November. Our energetic vice-president, Mrs. Blain, along with several other ladies have been spending their leisure hours in making some beautiful quilts for this affair, and we hope that everyone will keep this date in mind. Mrs. Wm. Coates will have charge of the fair and will be pleased to receive contributions for same. The sewing will be in the capable hands of Mrs. Blain, while arrangements for the cooking have been entrusted to Mrs. J. Haynes. Mrs. J. Hill will have the care of all articles donated by each member. A whist drive and dance will be held during the course of the evening.

Melvin Notes

What made Bob forget his cap Friday night?

All cars have had halos but when it comes to freezing up, the Chev. takes the cake.

Mr. and Mrs. Hughes of Carstairs spent Sunday at P. Johnston's home.

Mr. and Mrs. T. Duncan spent Sunday with Mr. and Mrs. G. Young.

Mr. and Mrs. Emil Krebs spent Sunday with Mr. and Mrs. Kershaw.

Mrs. C. Gibbs and children are spending a few days at the home of Mr. and Mrs. Whiteside.

Allen Krebs and Art Good entertained a few of their friends at dinner on Sunday last. They say their prize turkey tasted pretty good.

Mr. and Mrs. Ed Vetter and family, Mr. Chester Rist and sister, of Three Hills, also Mr. and Mrs. Phillipson of Didsbury, spent Sunday with Mr. and Mrs. Peter Johnston.

The dance in A. Krebs's barn last Friday night was well attended. The first prize, a turkey, was awarded to Art Good and Allen Krebs. Second prize, a chicken, went to Helen Moon. The music was real snappy and every one seemed to have a good time.

We are pleased to say we have two R. N. Nurses belonging to our district, Misses Ruth Johnston and Marjory White, of whom we are very proud. Ruth returned home on Monday from her three years' training at the General Hospital, Calgary. We all wish you every success Ruth.

Weekly Joke.

An editor in a small town decided to adopt the city idea of posting up bulletins of important events in the front of his shop. Soon after the erection of his bulletin board, he was told by the local physician that Deacon Jones was seriously ill. The deacon being of some prominence in the community, the editor posted a series of bulletins as follows:

10 a.m.: Deacon Jones no better.

11 a.m.: Deacon Jones has relapsed.

12:30 p.m.: Deacon Jones' family summoned.

3:10 p.m.: Deacon Jones has died and gone to heaven.

Later in the afternoon a travelling salesman passed, stopped to read the bulletins and added the following:

4:10 p.m.: Great excitement in heaven, Deacon Jones not yet arrived.

All Canada from horn d'oeuvre to desert was represented at the first dinner served to the former Governor-General of Canada, Viscount Willingdon, on Canadian Pacific liner Montclair, which sailed for England recently. Starting with Saint John oysters, it included supreme of Nova Scotia sole, saddle of western lamb, roast Ontario chicken, and bomb maple leaf as a sweet.

Work has started on the building of the British Columbia link of the Trans-Pacific Telephone Line. A direct system through the Crow's Nest Pass to Alberta will be provided to replace the present system of routing telephone calls to and from British Columbia across the United States via Seattle. The proposed system will cost \$1,250,000 and will involve some 655 miles of telephone lines, 125 miles of which have already been built.

Marriage at sea has happened before and will likely happen again, but the distinction of being baptized at sea is claimed to be unique and this occurred when two infant children were baptized in mid-Atlantic by Dr. Oliver C. Rankin, Scottish minister aboard Canadian Pacific liner Montclair, recently. The mothers and children were coming out to Canada from Great Britain and the minister is giving a series of lectures at McGill University.
